The engine built its steam,
And the long train
Was prepared by its team
To start a long winding journey
That would bring joys and pain.

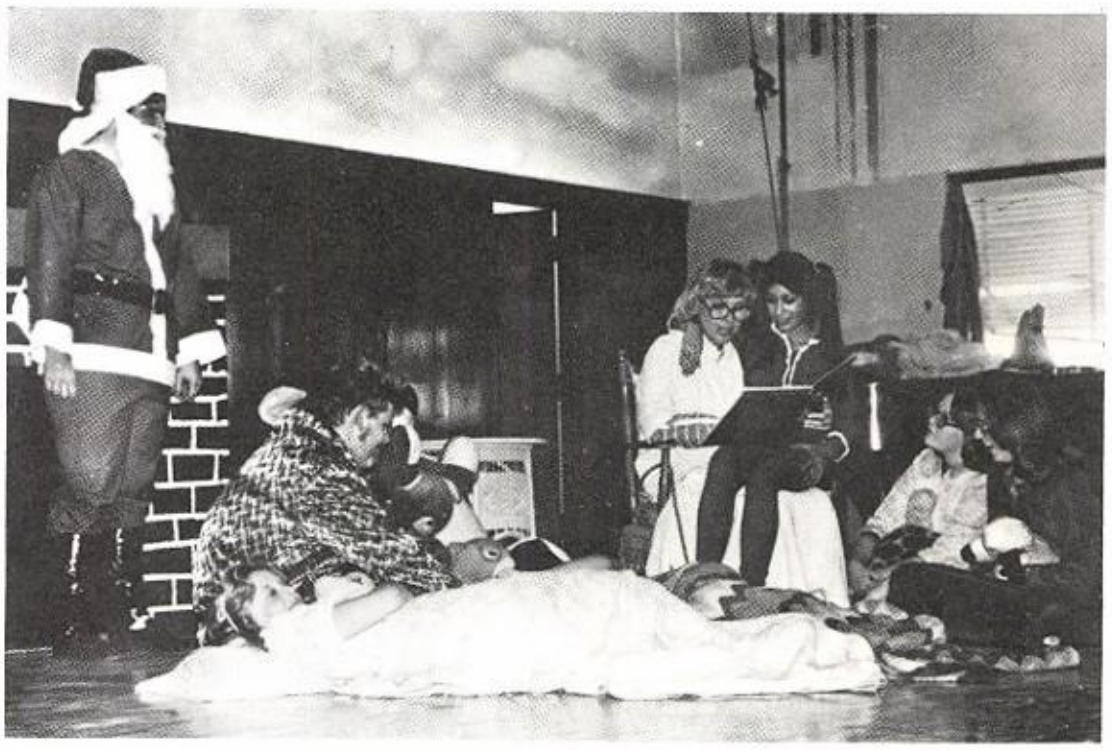
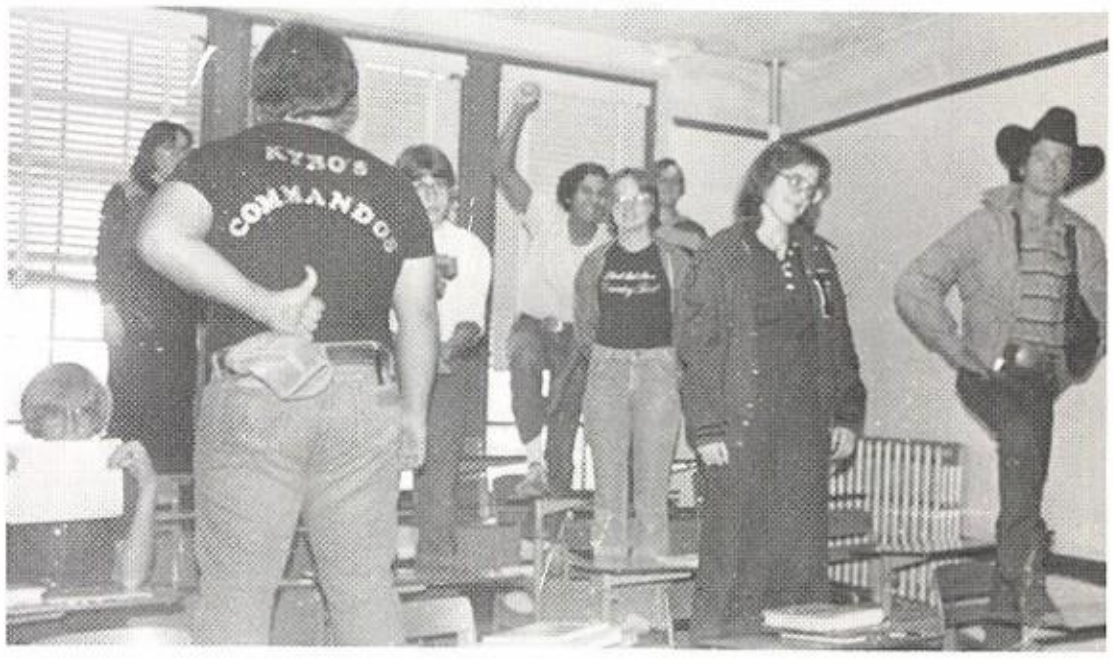
Give me some money, please.

Let's build a snow man.



"Twas the night before Christmas."

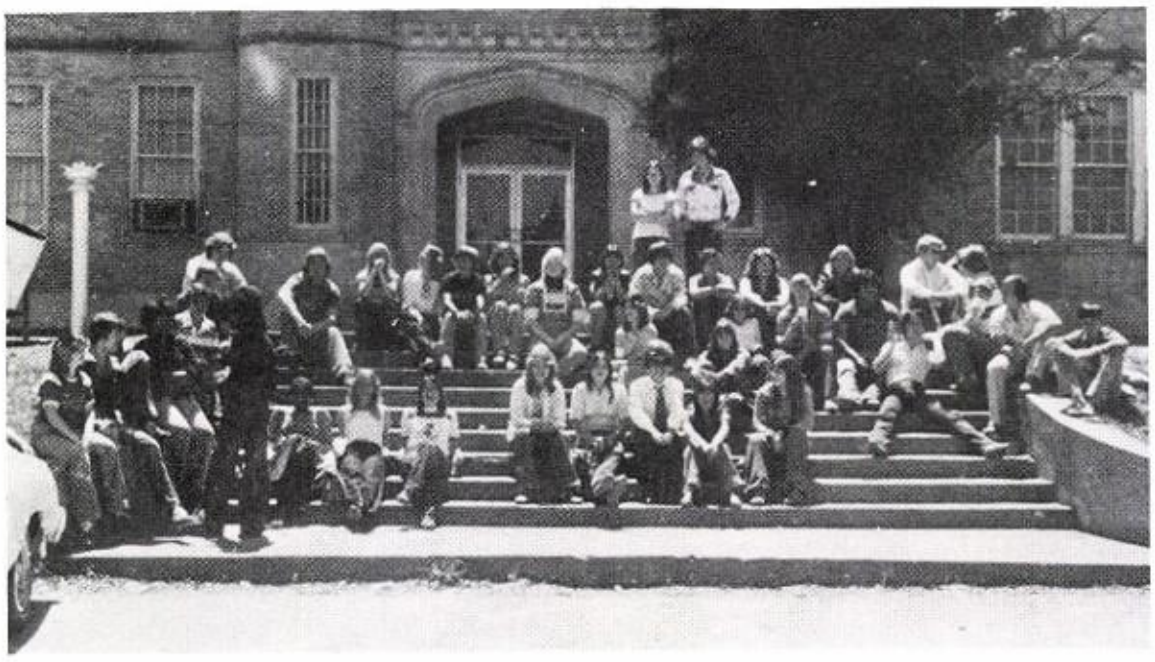


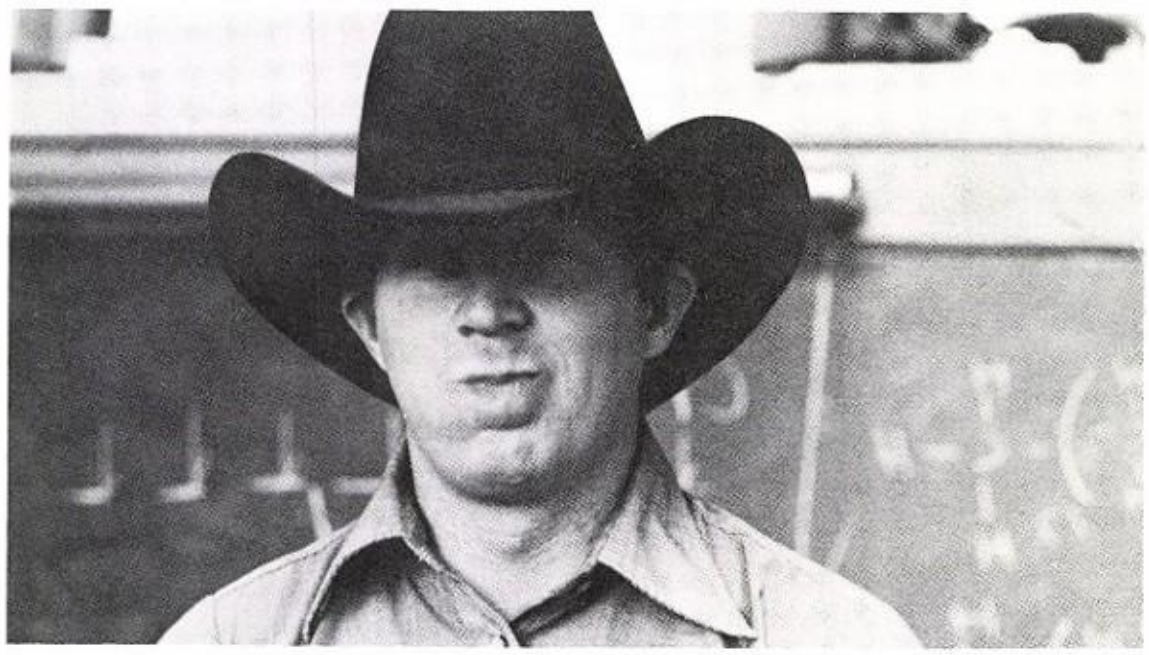
Mother May I?

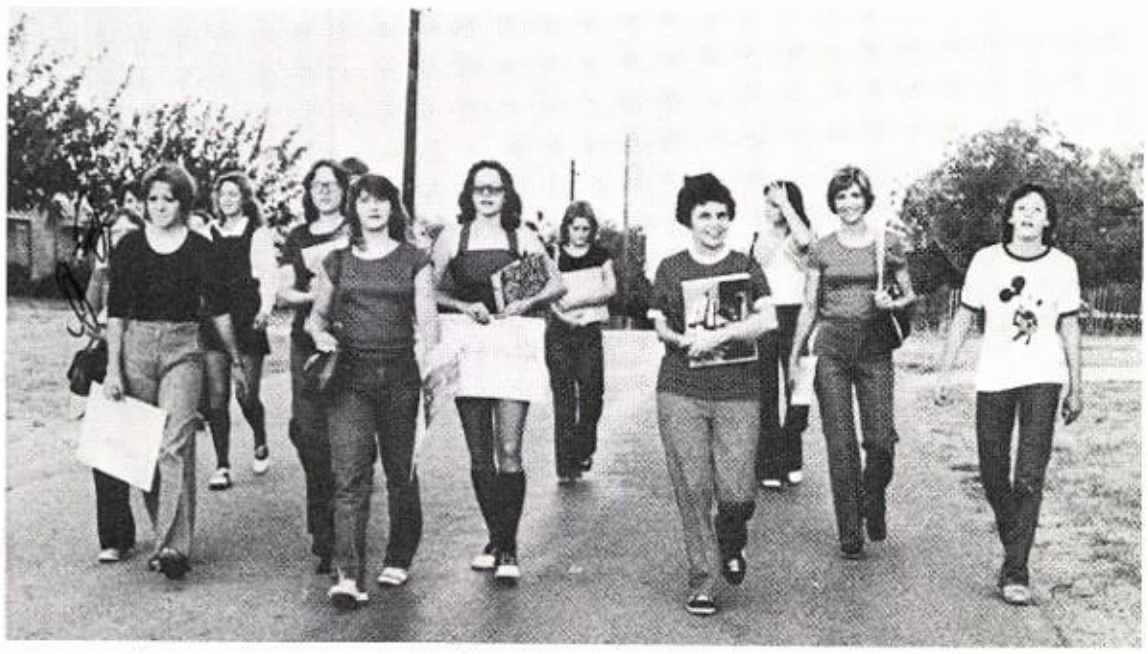
As the train pulled away from the platform,
Anticipation grew like its speed.
Everything began to take form,
It all began to level off,
And the engine started to lead.

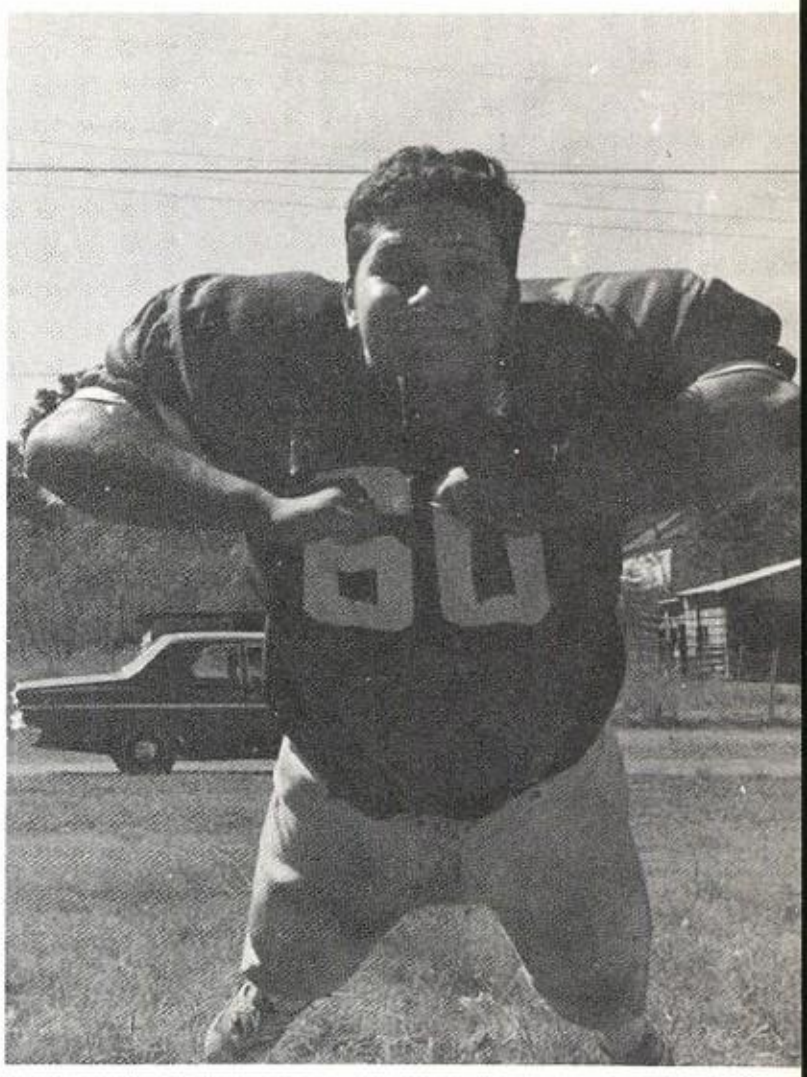
The train experienced many things
As it travelled down its tracks.
We can still hear the song it sings,
And its memory lives on,
Though the journey is at our backs.

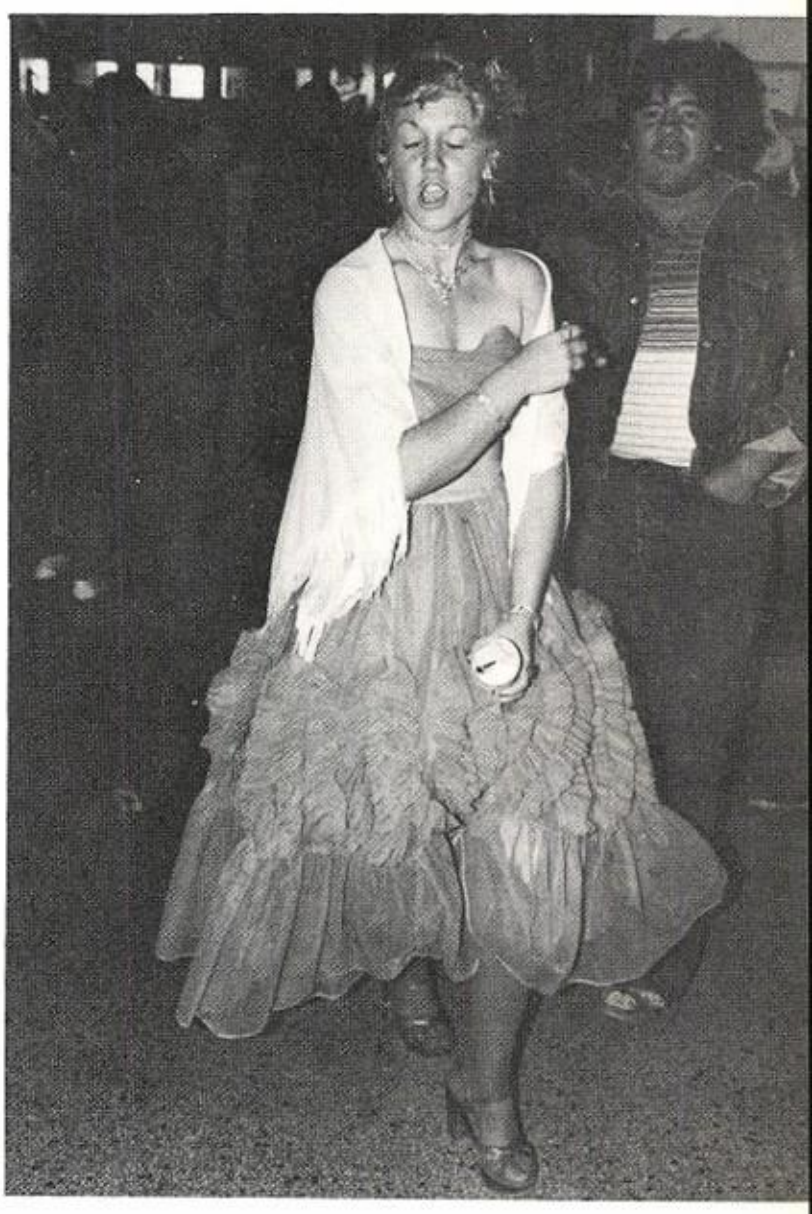
In the journey we hit some rough
spots
That tested all our strength.
But those were just little blots
That passed swiftly from us,
Almost forgotten in the journey's
length.











And when the train reached its journey's
end,
We realized that it would go on.
To more exciting times around the bend,
The train will continue to move,
But our memories will not be gone.

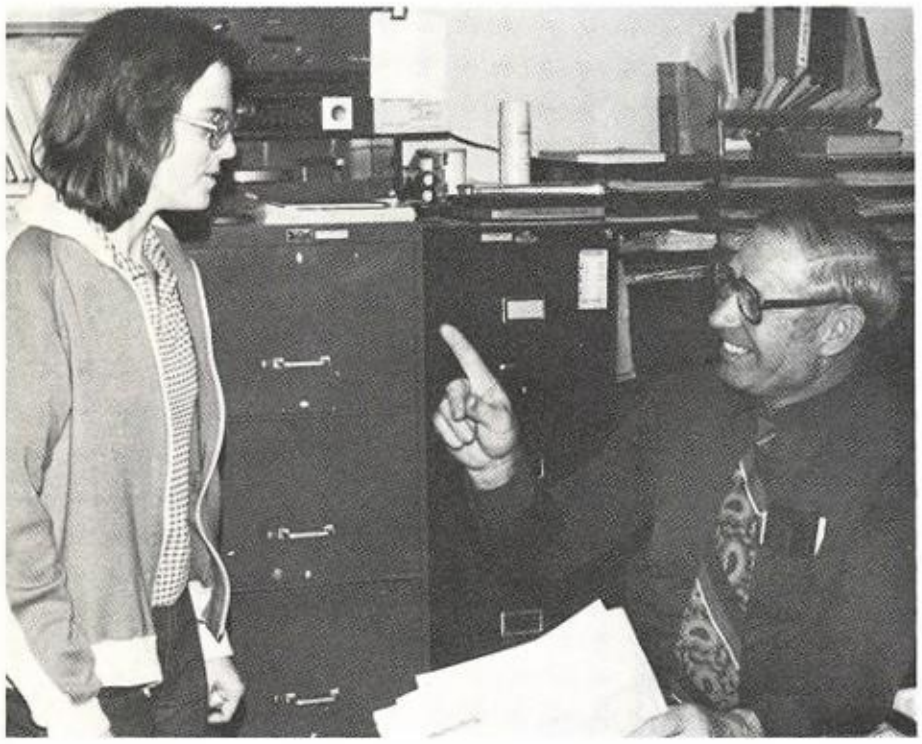
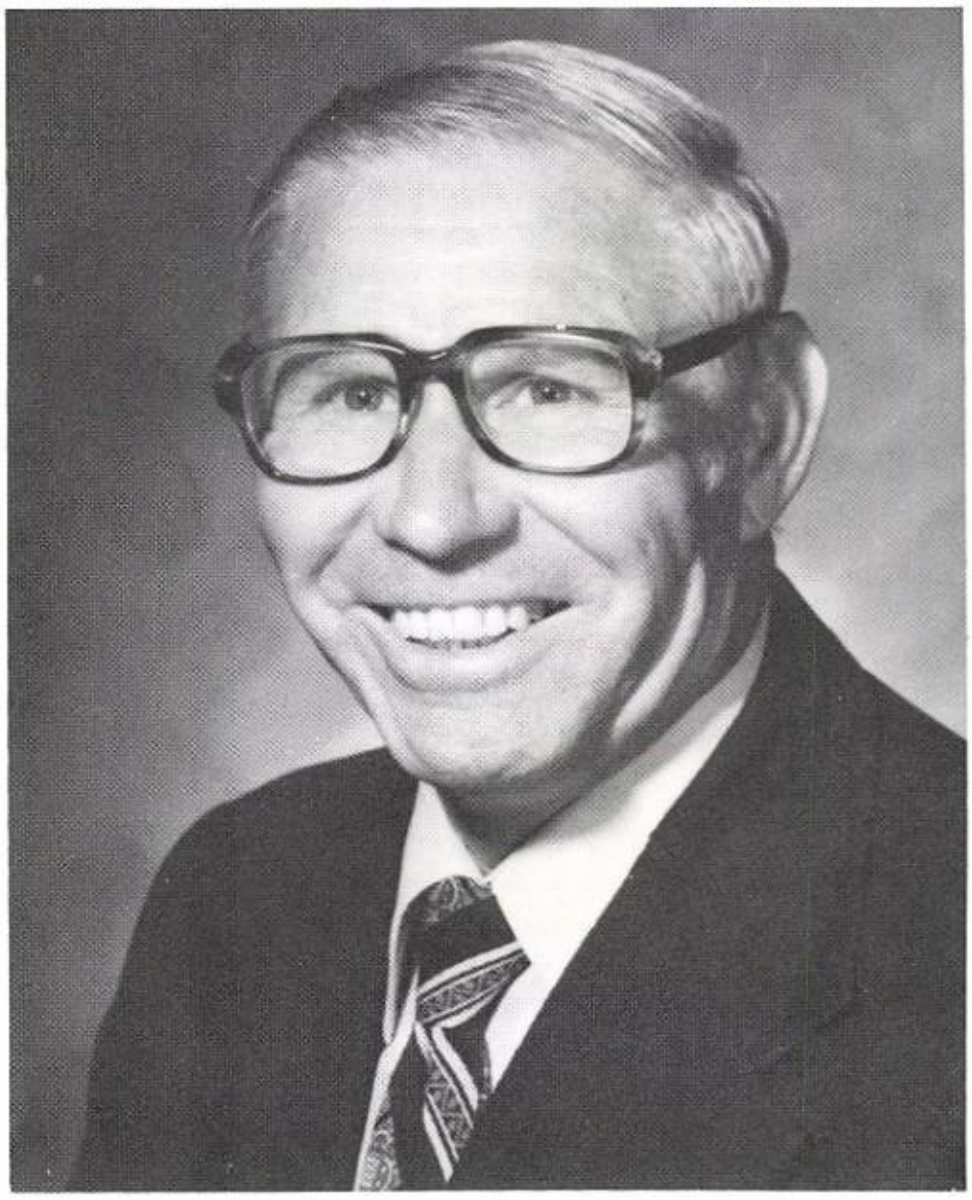
The Hill Express

Principal E. O. Hill's concern and good nature have made a most pleasant and enjoyable atmosphere here at E.H.S. He is dedicated to inspiring students to do their best, as well as promoting Maverick Spirit. His talents are varied as seen below. It is with pleasure that we dedicate the 1977-78 Maverick to him.



A daily job for Mr. Hill.



Mr. Hill calls for spirit.

The spirit begins.

He got the spirit.

From Classics To Contemporaries

The English language is used by millions of people all over the world. Included among them are the students and staff of Eastland High School. Analyzing the **Odyssey,** listening to a tape of the Canterbury Tales, taking notes on a lecture about Julius Caesar, and learning how to prepare a research paper are some of the areas students covered in the English Department during the 1977-78 school year.

It is easy to be ordinary, but it takes courage to excel. Success is not always measured by a won-lost record, but sometimes in what you learn during the games. With our coaching staff it is important that every team have self-pride and self-determination; this will always give a team a winning attitude and greater team unity.

Making Our School Better

The job of the maintenance staff is never done. There are always failing lights, dirty floors, and stopped up sinks to keep them busy. The students and teachers depend on them and they are always dependable.

We appreciate the efforts of the cafeteria ladies who provide daily lunches for the students and teachers. They have a big and important job facing them, however, they handle their job with skill and efficiency, making lunchtime run smoothly.

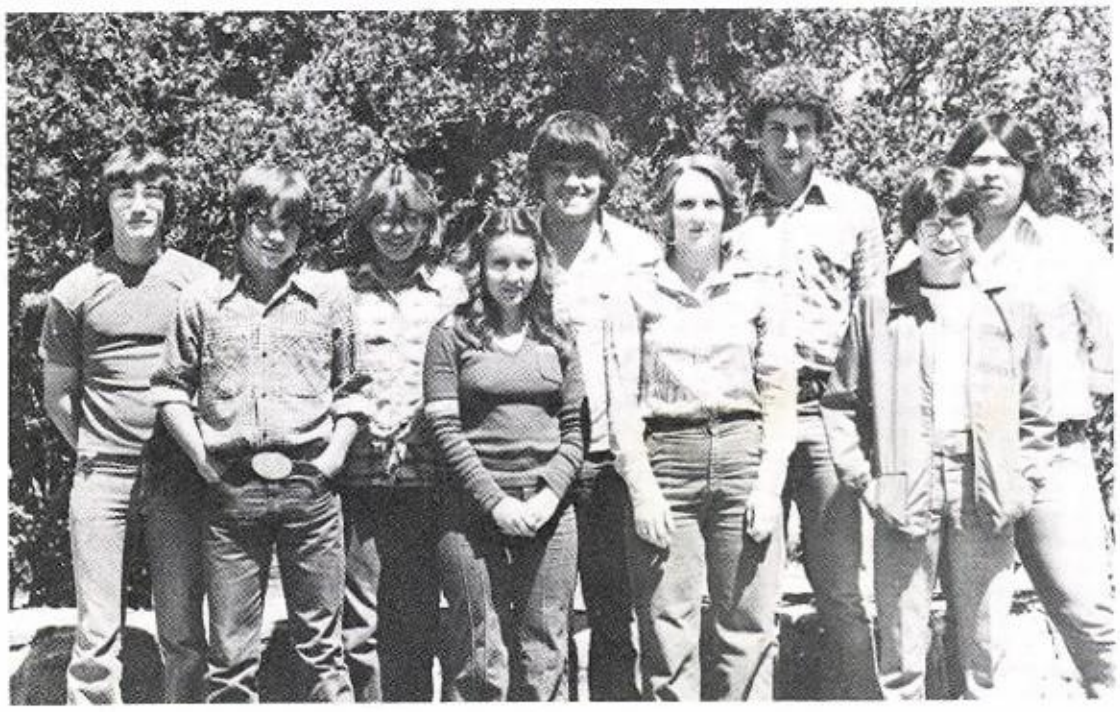
Student Council Adds Spirit To E.H.S.

Student Council Officers for 1977-1978 were President John Hill, Vice President Claudia Bulgerin, Secretary Jo Allmand, Treasurer Keith Bulgerin, Reporter Thane Arther, Parliamentarian Bart Boles

Sponsors Mrs. Payne and Mrs. Mahan

The E.H.S. Student Council strives to bring new projects and spirit building campaigns to the school. Each year the officers participated in a week long camp where they got many fresh new ideas. This year they were one of the few schools asked to teach a class at the State convention. Some projects sponsored by the Student Council were: different spirit raisèrs each week, gas fast week, various dress up days, and a Talent Show.

Representatives: James, KaTrina, Suzanne, Blake, and Rusty.



Alternate Representatives and Class Presidents: Scotty, Mark, Weesie, Diane, Lee, Debra, Jeff, Keith, and Arthur

The EHS annual staff strived very hard this year to prepare an annual that everyone would be proud to possess. They also enjoyed working under the supervision of Mrs. Melba Aaron.

Preparing an annual is a year long project. Many long, hard hours are spent in and out of the school year. Planning the ladder, covering all events, developing and printing photos, preparing the layouts and copy; not to mention a week at annual camp, selling ads, selling annuals, then distributing the final edition and hoping it will be enjoyed by one and all.

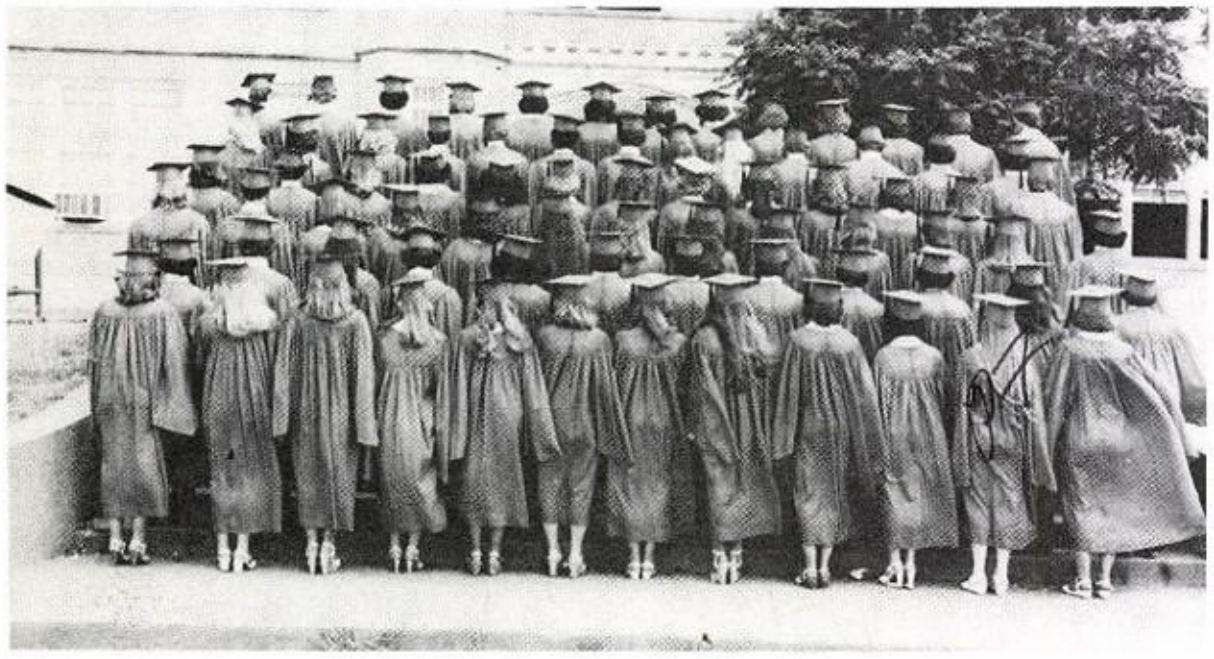
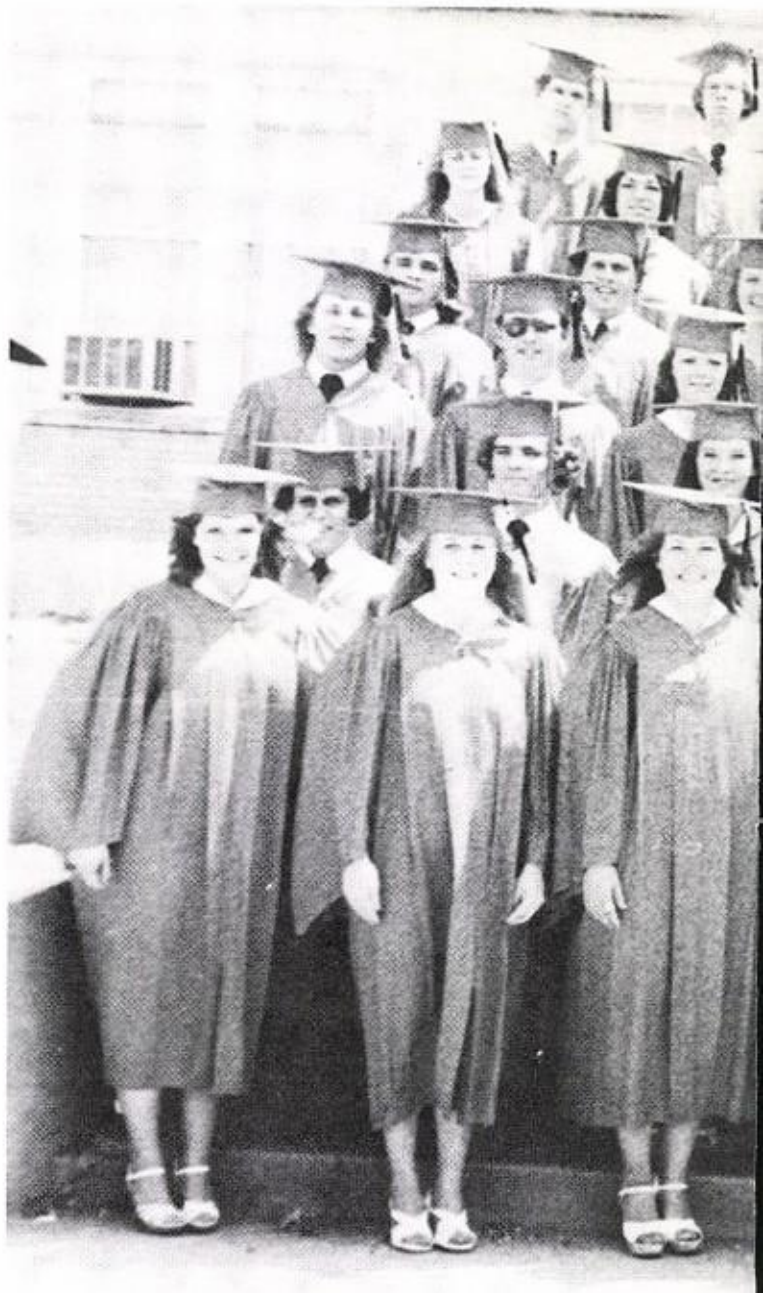
Red & Black Blossom Special

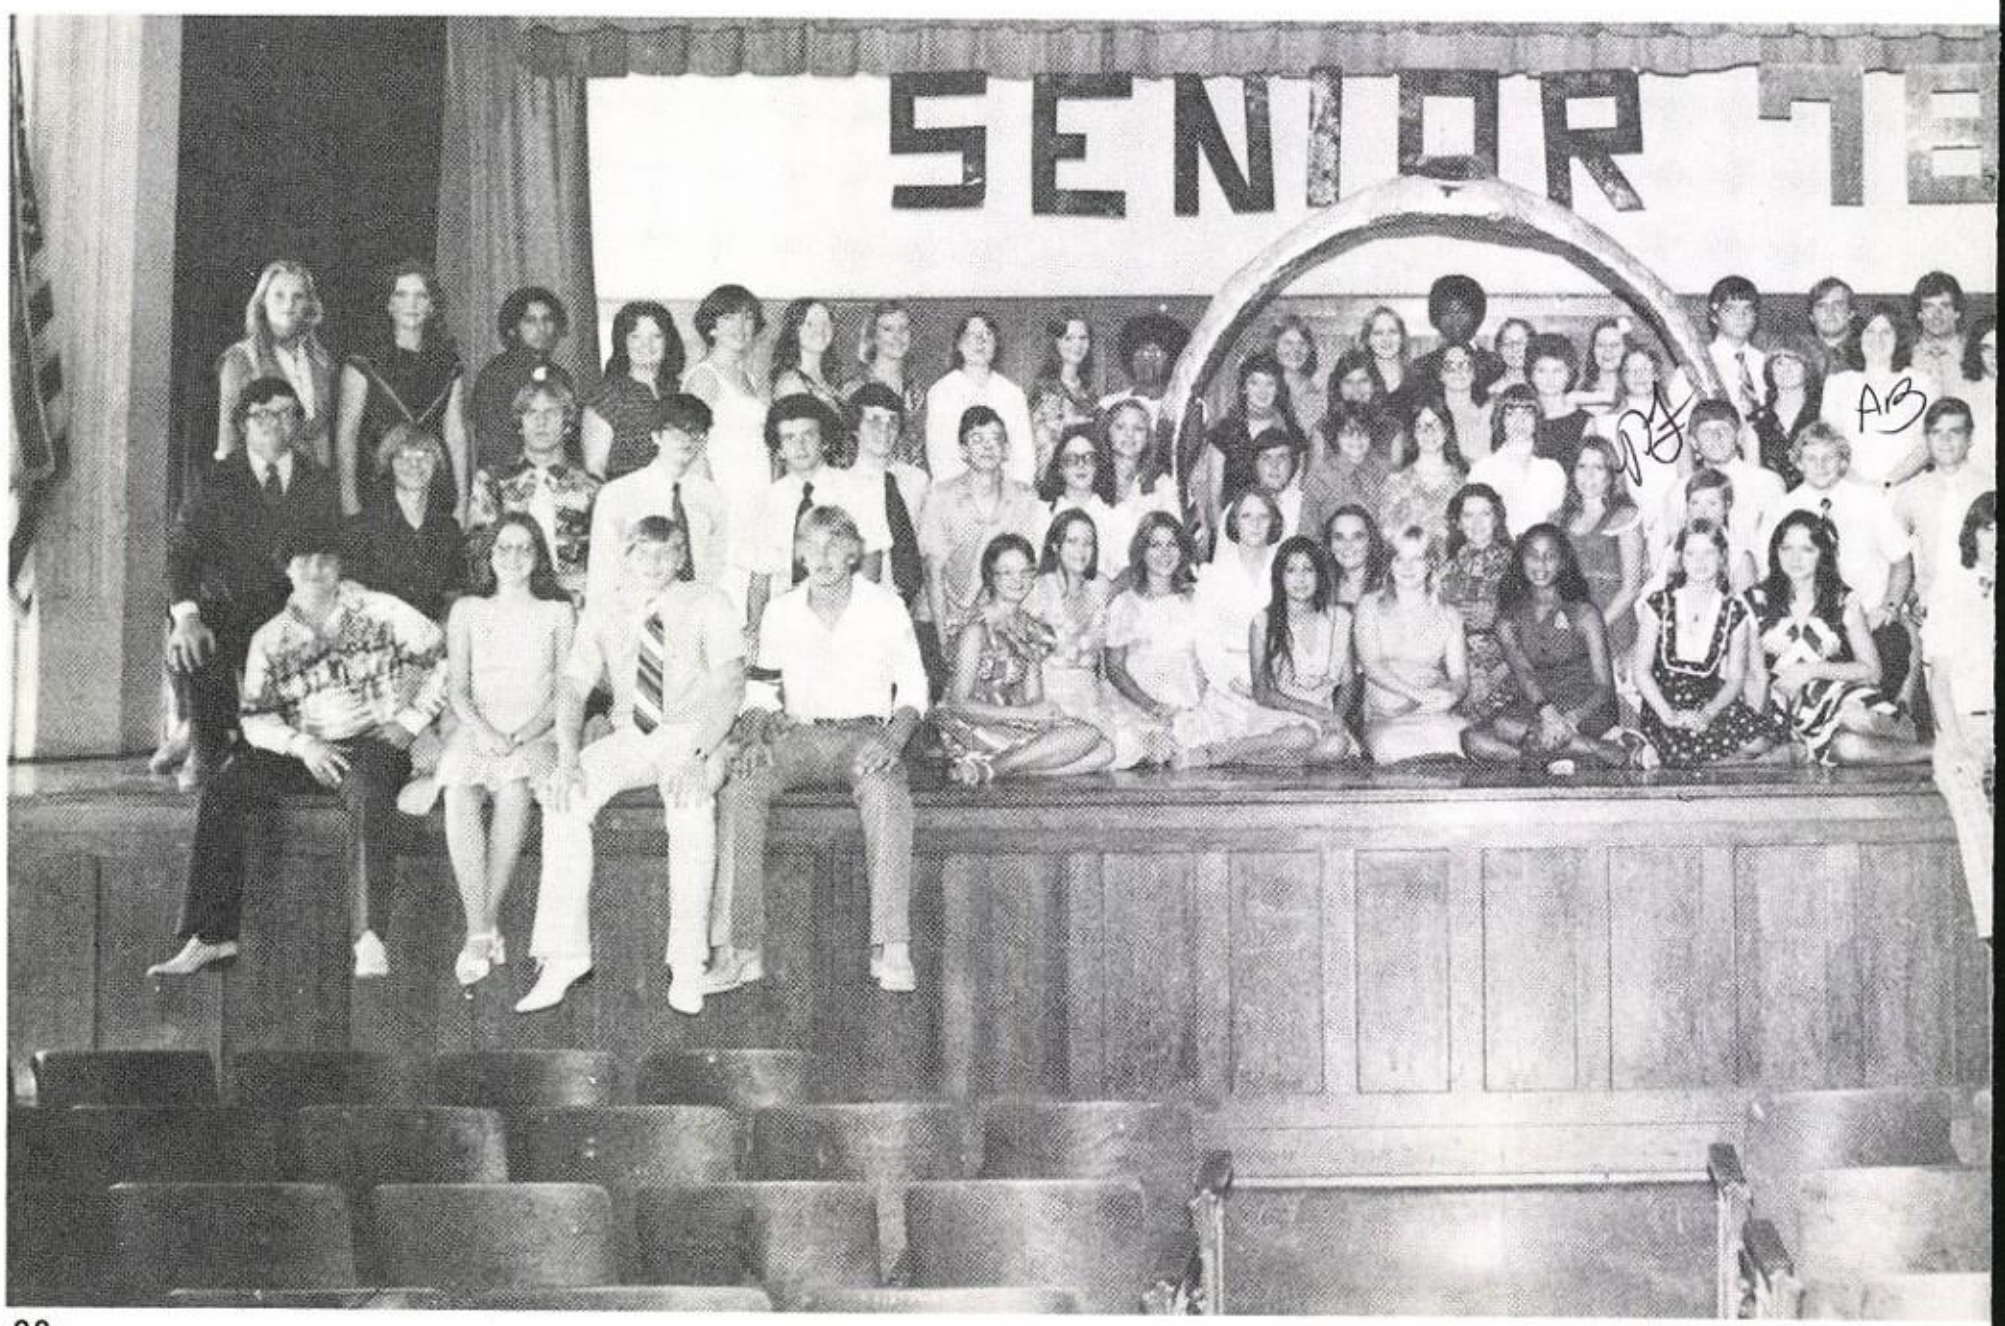
The Alpha

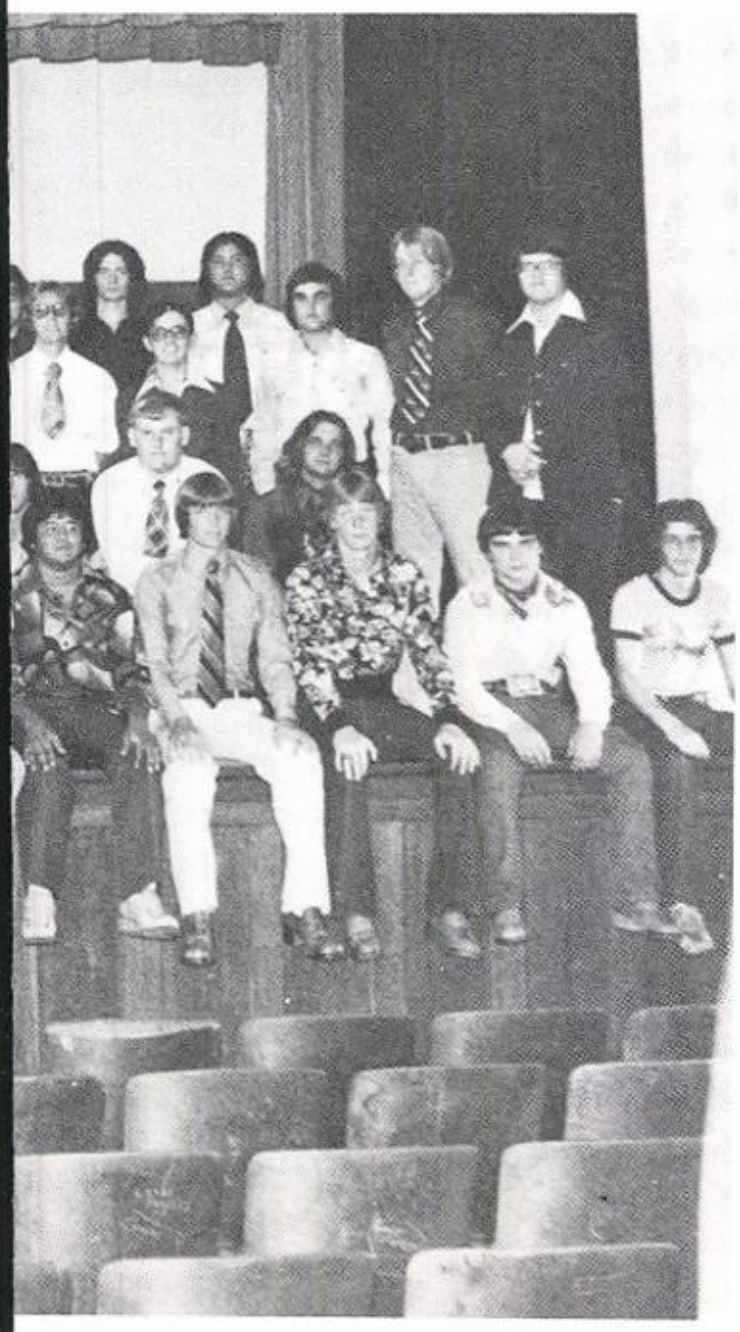
A senior year is a journey; a journey of both time and experiences. Every journey must have a beginning and an end; a first big step and a last step. The ring presentation ceremony is the first step on the journey through a senior year. The ring brings many feelings to the seniors; pride in their accomplishments thus far, anticipation of the fun of senior year, and hopes of graduation. For the seniors the ring is a goal achieved; for the underclassmen it symbolizes a goal to work toward.

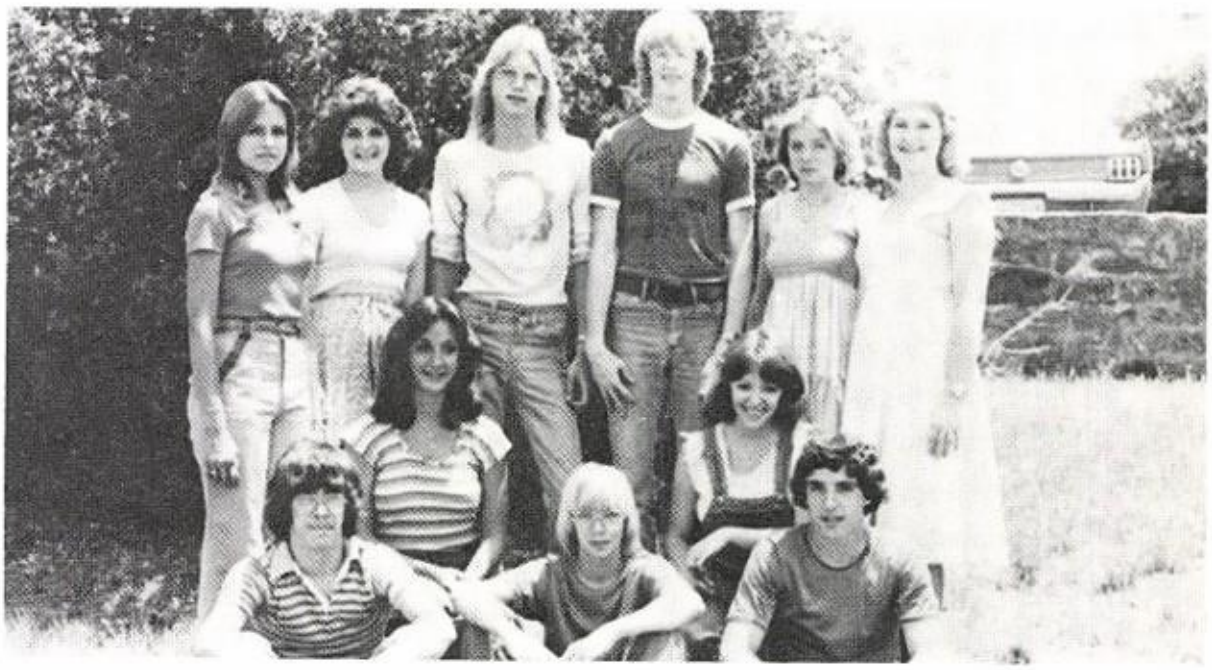
As the senior year journey continues, many smaller steps are taken through football season, basketball games, track meets, tennis tournaments, band contests, golf meets, English tests, Christmas holidays, snowball fights, college days, senior parties, the Prom, and Graduation rehearsal. And finally one day when you least expect it comes GRADUATION!!











Ushers: 1st Row (L to R) Steve, Ginger, Jimmy, Monica, and Scott. 2nd Row; (L to R) Donnay, Lacey, Jeff, Bart, Teresa, and Katrina. Not shown Billy Adams.

The Omega

Graduation is the end of the senior journey, yet in the journey of life it is only the end of a path and the beginning of a winding road. It is the culmination of twelve years of hard work, good times, sad times, friendships, and unforgettable events. Graduation brings pride in accomplishments, yet sorrow at leaving friends at EHS.

A graduate must take a giant step from his childhood to young adulthood. This step is exciting yet frightening. As they go forth, the future challenges each of the graduates of 1978 to work hard, aim high, never give up, and be the best you can be!

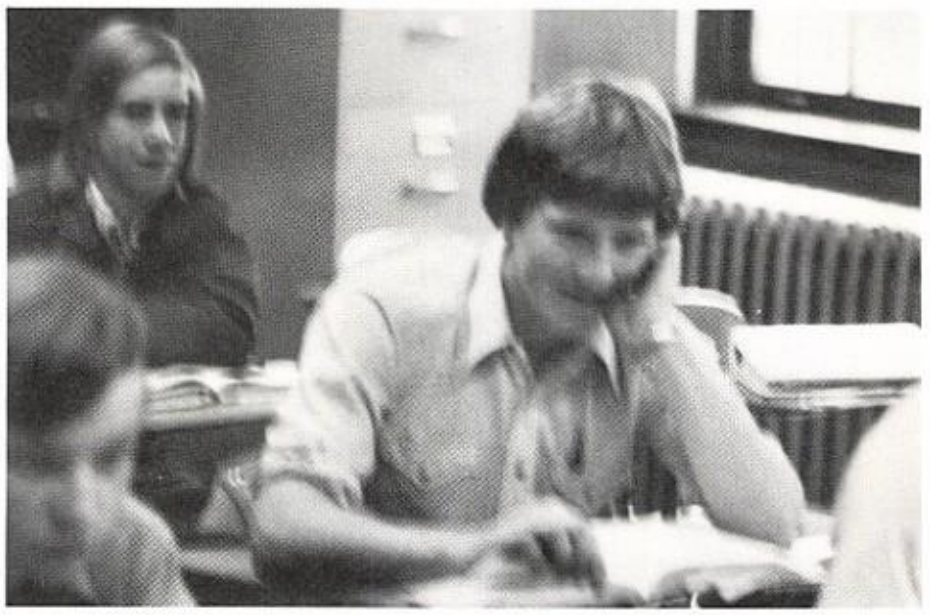
Putting it all together.

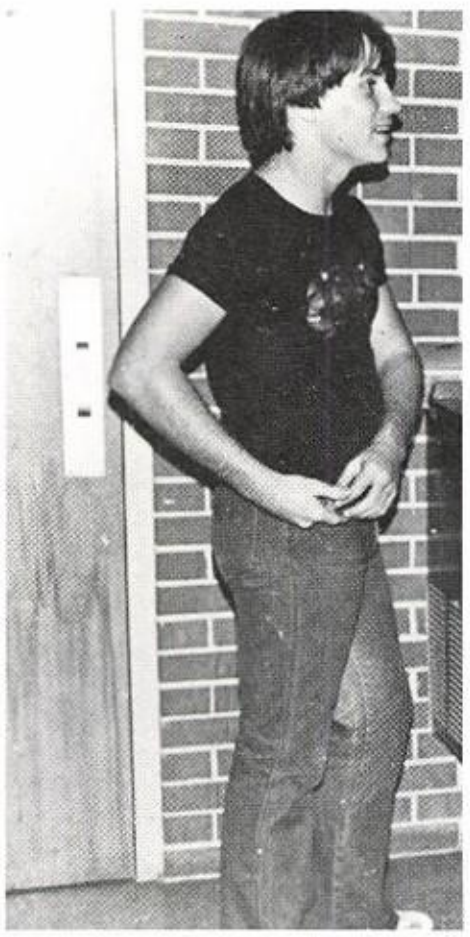
Studying Comes In Different Places, Different Ways

Are nouns and verbs really that funny?



To be or not to be, that is the question.

Joey, did you really say that?



Pay up Joey.

Looking guilty.

STUDENTS COME FIRST AT CISCO JUNIOR COLLEGE

THAT'S WHY WE'RE HERE, to serve you, the student, with your educational needs in making the transition from high school to college. At CJC you'll find instructors, counselors, and administrators who are interested in YOU. You'll not be just a matriculation number or hold down a seat number in a lecture room, but a PERSON who is our valued customer.

THERE ARE OTHER VERY GOOD REASONS FOR CONSIDERING CJC . . . Such as our exceptionally low costs--about $160 per semester for tuition and fees with reasonable-priced room and board also available . . . and financial aid is waiting for any student qualifying on the basis of need. And at CJC you can get the first two years' work towards any college degree or enroll in your choice of several different one or two-year occupational programs. Interested? If so, for more information, write or contact:

How long do you think it takes to plan and build a power plant? Two years? Four years? Eight years?

If you guessed eight, you're right. Eight years to locate and purchase the right site, order equipment, plan and build a lignite-fueled power plant, obtain approvals from all regulatory agencies, and then test the plant's operation carefully. It takes even longer for a nuclear-fueled plant — 10 to 12 years.

Right now Texas Electric is having to build expensive new plants that generate electricity with coal and nuclear fuel.

This way, in the years ahead, your generation will have the electricity it needs for a lot of important things—homemaking, jobs, education, health care and cleaning up the environment.

Building these plants is something we have to do, so that when the need is there tomorrow, the electricity will be there, too.
